Cause of death: Medical Problem

Notes

*Electrical Contractor, Area Service, Toluca, IL
Genealogical Researcher*

From Life Story of Elton E. Pearson that he wrote approximately 1999.

When Elton & Evelyn (his second wife) closed down their store in 1984, Elton began working on his family tree in real earnest. He helped Evelyn with her Maternal Family Tree, the Gardner, from Hart Co., KY. They cataloged about 2000 names before stopping. They then turned all that information over to the Hart County, (KY) Historical Society in Munfordville, Ky., for use by others. Evelyn lost sight in one eye; this caused her to give up the search.

Elton then worked harder on his own family tree, covering both the Paternal and the Maternal side and trying to include all distantly related individuals. His search goes back to an Edward Peeresonne of Abt.1585 and back to 1528 on other related members. He writes up a paragraph on each person averaging 3 or 4 people per page. He put them in loose leaf note book binders for each 100 years (as his files grew the number of years in each binder changed). (Classifying each person by their birth date, i.e. Year, Month, Day.) These note books now take up 13" of shelf space and contain over 8000 names cataloged (again this changed and his records take up a room). Each paragraph contains their full name, where they were born, who their parents were with parents full birth dates, who their siblings were with their birth dates, who they finally married with spouses birth date, when they married and where, who each of their children are with their birth dates, whether or not there was a second marriage with those children listed with birth dates, and when they died, their age at death, and where they are buried. Some other info also tossed in from time to time.

At some later date this will all go into a computer record. In 1997 Elton organized the first ALL PEARSON Reunion, which included all spellings of the Pearson name, Peeresonne, Pierson, Peirson, and of course Pearson. This first Reunion took place in Troy, Miami County Ohio on August 1-2-3, 1997, because there is a lot of Pearson history in that county. About only 50 persons were notified, so an attendance of 31 was considered good. Some came from Illinois, Indiana, Wisconsin, Ohio, Florida, and the State of Washington. With an election to organize a permanent family organization, Elton's son Tim was elected the new president (In charge of the next Reunion in two years.); Willard Pearson of Attica, IN. was elected V. Pres., Mary Pearson of Phillips, WI. (Now in Ogema, WI.) was recording Secretary, John Pearson of Ogema, WI. as Chaplin, and Elton as Corresponding Secretary.

The-next-Reunion was planned for Aug.6-7-8, 1999 in Union & Newberry Counties, South Carolina,-where there is much Pearson history also. Also a newsletter was to begin with original plans of once a year, but with so much info available, it was decided by Tim (Of Orange Park, FL.) and Elton, to publish it every quarter. There was an old Discontinued Publication called "Pearson, Places & Things", which ceased publication in 1994, so Tim and Elton decided to call the new one "Pearson's Places & Things" We sent out over 425 free copies the first three times. Many sent in their \$5.00 fee and many even more to help defray our cost. As some did not send in their fees we finally dropped them from the mailing list, today, the 1st of March, 1999 we have a list of about 150. The fee for 1999 is now \$10.00 (still a good bargain). Our newsletter has grown from about a page and one half to the last of 7

Family Group Sheet

and one half. The one half page leaves room on the remainder of the page for address and postage. (This is actually 4 sheets of paper on both sides). The next issue will prepare readers to be able to receive the newsletter on line, in full color.

When Elton Evelyn closed down their store in 1984, they took their work van and converted it for travel and camping. Not in the rough, primitive camping, but a place to sleep out of the weather, and prepare small meals regardless of the weather. In 1988 they purchased a new Dodge (Full size) Van with a V-8 Engine and converted it for travel also. This time a bit more carefully planned and better equipped. In 1996 they purchased a new 1997 Dodge Maxi-Van and converted that one even better. Now like a well equipped Motor-Home, but small enough to go anywhere and park anywhere, (Even in underground parking decks). They can now enjoy their retirement years traveling all over the US & Canada. Especially visiting places the ancestors had lived, checking Libraries and walking cemeteries. Even finding the Enock Pearson (Of 1718) cemetery in Union County, South Carolina, which no one knew where it was anymore.

Elton stays quite busy working his vegetable garden, his flower garden, putting up bird houses & feeders, planting trees and bushes, on their little 60' x 150' lot in the city of 1500 population, called Toluca, Marshall Co., IL. He also keeps busy answering the many relations, who write asking questions about the genealogy of the Pearson Family.
